## VISION

- Continued efforts on bringing the level playing field for all the Chartered Accountants and SMPs, irrespective of size, or place from where they belong to**  
*Significant Steps for this:*
  - Changes in minimum recommendatory scale of fees and making them **MANDATORY**
  - Implementation of joint audit** for certain class of auditee companies
  - Equipping newly qualified Chartered Accountants with **comprehensive knowledge and application of Ind AS**, ensuring uniform expertise irrespective of their articleship experience
  - Setting up of framework for SMPs to scale up and bring healthy competition at all levels of profession
  - Advocating for a unified set of standards across all levels of enterprises, empowering Chartered Accountants to deliver comprehensive services across diverse sectors
  - More representation from MSP in standard setting process, which address issues up to micro level of industry and profession
- Vigorous and continued efforts in bridging gap in thought process and differences between ICAI and Government Ministries and departments**  
*Significant Steps for this:*
  - Frequent interaction with various regulatory bodies
  - Strengthening our position through firm and consistent actions, fostering alignment between ICAI and government ministries/departments. Taking tough stands in case it is in interest of profession, even if it means being at loggerheads when diplomacy fails
  - Robust efforts to enhance the recognition of Chartered Accountants as trusted professionals across all sectors sought by the Government. **Expert Advisory Cell (EAC) - set up for advising and putting forth views of ICAI**, in areas of all important policy making of government, which reinforce our strength
- Reviewing the regulatory framework set up by ICAI to reduce additional burden on the members, with focus on bringing in 'EASE OF PROFESSION'**
- Bridging the gap between members from industry and ICAI**  
*Significant Steps for this:*
  - Including industry participation in policy making activities of ICAI
  - Industry specific publications with case studies
  - Industry cell - to specifically address the workspace challenges and constraints faced by members in industry by providing dedicated support and solutions
- Continuous and rigorous efforts in embracing technology at all levels of ICAI and for its members and students. And empowering members and students with advanced tools and digital resources**
- Setting up of framework that positions ICAI as an internationally recognized authority in standard-setting**
